The inside meter is the meter of record. Inside meter/outside register discrepancies will be billed to the customer's account. Periodic comparisons of both readings should be made to ensure the accuracy of the outside register. **Please notify the Water Service Department at (847) 949-3273 if any discrepancies are found.**

Meter Replacement Program – The Water Service division is upgrading water meters with radio frequency (RF) transmitters, which allow the meter to be read from the street. Notices will be delivered when we are planning replacement in your area.
