Recommendation

Motion to adopt a Resolution to reject all proposals received for the Lift Stations 5 and 6 improvements contract.

Document Comments

Proposals for the Lift Station 5 and 6 Improvements project were opened on June 11, 2015. The work consists of pump replacement, electrical upgrades and manhole rehabilitation at both lift stations. The Village received only one bid. The respondent provided costs for the overall project as well as alternate bids for different pump control systems. The sole bid provided was approximately 40% overbudget. After reviewing the proposal, staff determined that it may be more beneficial to examine the scope of the project to reduce the cost.
